## Standardized Label Template

The Ohio Department of Commerce has drafted the following standardized label template. This template aims to provide cultivators and processors licensed by MMCP with a label template displaying all rule-required information in a standard format and in **legible size** applicable to the product being labeled; create a standardized label in a format familiar to patients that will allow access to essential information at-a-glance, regardless of product type or origin; and provide partial fulfillment of requirements per O.A.C. 3796:6-3-09(B) to eliminate redundancies.

If utilizing **OPTION A**, including **all** elements shown below in identical layout/format, submission of the label for department review/approval is **not required**.

Terpene and “Other cannabinoid” information is optional. However, if included, terpene and “other cannabinoid” will be required to appear in the areas identified in the following examples.
