

## Ohio Department of Commerce Medical Marijuana Control Program

### Standardized Label Template

The Ohio Department of Commerce (Department), Medical Marijuana Control Program (MMCP) has drafted the following standardized label template. This template aims to provide cultivators and processors licensed by the MMCP with: a label template displaying all rule-required information, as outlined in Ohio Administrative Code (O.A.C.) 3796:2-2-02 and 3796:3-2-02, in a standard format and in **legible size** applicable to the product being labeled; a standardized label in a format familiar to patients that will allow access to essential information at-a-glance, regardless of product type or origin; and provide partial fulfillment of requirements per O.A.C. 3796:6-3-09(B) to eliminate redundancies.

If utilizing **OPTION A**, including **all** elements shown below in identical layout and format, submission of the label for Department review and approval is **not required**.

Terpene and “other cannabinoid” information is not currently required by the rules. However, if included, terpene and “other cannabinoid” will be required to appear in the areas identified in the following examples. If this information is not located in the identified areas, the label will require Department review/approval prior to use.
